Add4DIR

You have to complete the following form to place your listing in the Yellow Page Directory. You can change this information anytime you wish. If you move, change the address. New phone number, make the change so your can find you with your current phone number.

MAKE SURE YOU GET FOUND!

The key words is what works best. You can have as many keywords as you wish, as long as they pertain to products or services you sell.

A quick tip: phrases work best.

Example: tax, income tax, individual income tax, individual income tax preparation. For accountants, all of the words and phrases work, but the last one is the best as it covers all of the previous words and phrases.
